CHAMPIONSHIP SPORTSCAR IRACING LEAGUE

GT4 Madness Series Guide

Overtake Tuesdays - Season 5. Multi-make GT4 racing on Tuesdays, Sep 22 - Nov 24, 2026. Single 65-mile race every round. Mid-season - joiners welcome.

Race night

Lobby launches **7:00 PM EST** Tuesdays
65 min practice - 10 min open qualifying
Single **65-mile race** (lap count set before the session)
No heats. No reverse grid.

The car rule

All GT4 cars available in iRacing.
Pick exactly **3 cars**. Drive each exactly **3 times** in Rounds 1-9. Any of your 3 in the Round 10 finale.

HOW TO JOIN - Both steps are required

1. Join the Discord: discord.gg/d52ma2HQVB - Discord is mandatory; no Discord, no grid. 2. Join the league in iRacing - League ID 11685. You must complete both steps to race.

Effective November 11, 2026 | League Admins: Mike Fagone, Dave Sciarretta & Ivan Duarte | Discord: discord.gg/d52ma2HQVB | iRacing League ID: 11685 | This is the single GT4 Madness document for Season 5 - Series Guide and the complete Sporting Code (Sections 1-10) in one. There is no separate sporting code. If anything conflicts with an older post, this document wins.

CONTENTS

How to use this code

This code governs every GT4 Madness lobby, qualifying session, race and official league channel in Season 5. By entering a lobby you agree to race under it. If anything here conflicts with the iRacing Sporting Code, the stricter standard applies in CSiRL lobbies.

1 League at a glance
2 Cars, selection & entry
3 Race-night format
4 Calendar - Season 5
5 Points - GT4 Season 5
6 On-track regulations
7 Livery guidelines
8 Stewarding & penalties
9 Ticketing, behaviour & championships
10 Driver Categorisation

GT4 Madness is CSiRL's Season 5 Tuesday series: ten rounds of multi-make GT4 racing in iRacing, scored on Discord only - not on iRacing's scoring. Fixed setups level the cars, a 35% fuel cap and a mandatory pit stop shape the strategy, and the three-car rule means the championship rewards drivers who can be fast in more than one car.

1. League at a glance

Championship Sportscar iRacing League (CSiRL) runs **Overtake Tuesdays** on iRacing. Season 5 is **GT4 Madness**: 10 rounds on Tuesday nights from September 22 to November 24, 2026, for GT4 cars, with mid-season joiners welcome.

ITEM	SEASON 5 - GT4 MADNESS
Night	Tuesdays - Overtake Tuesdays
Lobby launch	7:00 PM EST
Format	65-minute practice, 10-minute open qualifying, single 65-mile race
Cars	All GT4 cars available in iRacing - pick 3 for the season (Section 2)
Setups	Fixed, 35% maximum fuel, 1 fast repair, minimum 1 pit stop
Entry	iRacing Class D minimum, no iRating limit
Points	Turnout-max per race, scored on Discord only (Section 5)

To race, both steps are required: join the Discord at **discord.gg/d52ma2HQVB** and sign up for the league in iRacing with **League ID 11685**.

New driver? Read Sections 2 and 3, then check your dates in Section 4. Chasing points? Section 5 is the whole system. Involved in an incident? Sections 6, 8 and 9 set the standard, the penalties and the 24-hour ticketing window.

SECTION 2

Cars, selection & entry

2.1 Car pool

The car pool is **all GT4 cars available in iRacing**. Every car in the pool is eligible for the whole season, subject to the selection rule below.

2.2 The three-car rule

Nomination

Select exactly **3 different vehicles** from the GT4 pool to use throughout the 10-round season.

Allocation - Rounds 1-9

Drive each nominated vehicle **exactly 3 times** across the first nine rounds. The order is at your discretion.

Grand Finale - Round 10, St. Petersburg: you may freely select any vehicle from your previously nominated three-car pool.

2.3 Technical specifications

Vehicle setup	Fixed
Fuel capacity	35% maximum
Fast repairs	1 permitted per race
Pit stops	Minimum of 1 pit stop required per race
Qualifying scrutiny	Disabled
Weather	Forecasted (realistic)
Network	iRacing Network Quality Rule enforced
Driving aids	All standard in-game driving aids are permitted

2.4 Entry requirements

- **Licence:** iRacing Class D minimum.
- **iRating:** no limit.
- **Discord:** membership of the CSiRL Discord is required, and league sign-up in iRacing under League ID 11685 is also required. Both steps must be completed to race.
- **Content:** own the car and track for the round before lobby time.

SECTION 3

Race-night format

Every round runs to the same Tuesday-night timetable. There is one race per round.

PHASE	LENGTH	RULES
Lobby launch	-	7:00 PM EST on Tuesdays. Join through Discord.
Practice	65 minutes	Open session.
Qualifying	10 minutes	Open qualifying format. Fastest time takes pole position (+1 point, Section 5).
Race	65 miles	Single race. The 65-mile distance is converted to a specific lap count prior to the session start. Fixed setups, 35% fuel, 1 fast repair, minimum 1 pit stop.

Close, clean racing is the standard every Tuesday - leave racing room and race the full 65 miles.

Race-night notes

- Arrive through Discord and be in the lobby at launch so practice, qualifying and the race can start on schedule.
- Weather is forecasted (realistic) for the session.
- One fast repair is available in the race - it does not remove the mandatory pit stop.

Before your first race

- Complete both join steps: Discord and iRacing League ID 11685
- Nominate your 3 GT4 cars
- Check whether the next round is included or premium content
- Plan for the mandatory stop: 35% fuel cap, 1 fast repair available

SECTION 4

Calendar - Season 5

Ten rounds, Tuesdays from September 22 to November 24, 2026. Seven rounds run on included base content and three on premium content. A driver's single lowest-scoring round is discarded at the end of the season as a drop round.

RD	DATE (TUE)	TRACK	CONFIG	CONTENT
1	Sep 22, 2026	Virginia International Raceway	Grand Course	Included
2	Sep 29, 2026	Long Beach Street Circuit	-	Premium
3	Oct 6, 2026	Okayama International Circuit	Full	Included
4	Oct 13, 2026	Circuito de Navarra	Speed Circuit	Included
5	Oct 20, 2026	Lime Rock Park	West Bend	Included
6	Oct 27, 2026	Summit Point Motorsports Park	Summit Point	Included
7	Nov 3, 2026	Winton Motor Raceway	National Circuit	Included
8	Nov 10, 2026	Tsukuba Circuit	2000 Full	Included
9	Nov 17, 2026	Michelin Raceway Road Atlanta	Full	Premium
10	Nov 24, 2026	St. Petersburg Street Circuit - Finale	-	Premium

Planning your three cars: Rounds 1-9 must use each of your nominated cars exactly three times. Keep track of your allocation as the season runs - Round 10 is the only round where any of your three may be used freely.

Race distance is 65 miles at every round, converted to a lap count before the session starts.

SECTION 5

Points - GT4 Season 5

Championship standings are managed on the official CSiRL Discord server using a dynamic grid-size system.

> **Scoring is on Discord only. CSiRL does not use iRacing scoring for this championship.**

5.1 Turnout-max race points

The maximum points available in a race equals the total number of drivers who start that race. First place takes that maximum, and points descend by one per position to 1 point for the last starter.

EXAMPLE FIELD	PAYOUT, 1ST TO LAST
10 drivers start	10 - 9 - 8 - 7 - 6 - 5 - 4 - 3 - 2 - 1
14 drivers start	14 down to 1
20 drivers start	20 down to 1

Points are awarded per race - there is one race per round, so a round score is the race points plus any bonuses earned that night.

5.2 Bonus points

BONUS	VALUE	CONDITION
Pole position	+1	Fastest time in official qualifying
Fastest lap	+1	Fastest valid lap recorded during the race
Clean Race Bonus	+1	Completing the race with an incident count of 0x

5.3 Drop round

At the end of the season, each driver's single lowest-scoring round is discarded. A missed round scores 0 and is the natural drop, which keeps mid-season joiners in the fight.

SECTION 6

On-track regulations

6.1 General racing ethics

Unsafe track re-entry. Drivers recovering from an off-track excursion or spin do not possess the right-of-way. A blameless re-entry is only established once the recovering car reaches the apex of the subsequent corner.

Defensive manoeuvres. A defending driver is restricted to a single line change to protect a position entering a corner. Any secondary directional adjustment is classified as illegal blocking and remains subject to penalty.

6.2 Blue flags and unlapping

- Lapped cars must make predictable adjustments to allow lead-lap cars to pass unimpeded, maintain the standard racing line, and refrain from actively defending positions.
- Ideal passing zones are corner entries, exits and straightaways.
- Lapping drivers must not expect immediate yielding that compromises the lapped car's race safety.
- High-beam flashing is restricted to a maximum of one single flash within two corners of an intended pass.
- **Unlapping:** lapped drivers may unlap themselves if they possess a distinct pace advantage over the lead-lap car. The lead-lap car is not obligated to yield, and common sense must prevail if positions are not being actively contested. If a lapped car initiates an unlapping manoeuvre and causes an incident, penalty assessments will be significantly escalated.

6.3 Automated in-sim sanctions

INCIDENT POINTS	SANCTION
18x	Drive-through penalty, triggered automatically
30x	Disqualification, triggered automatically

These thresholds apply in the session in addition to any post-race stewarding under Sections 8 and 9.

SECTIONS 7-8

Liveries, stewardship & penalties

7. Livery guidelines

Custom paints and liveries are highly encouraged but must maintain professional standards. Liveries must not feature:

- Pornography or explicit adult material
- Discriminatory symbols, text or themes
- Profanity
- Political campaigns or messaging
- Religious iconography or text

8.1 Contact and collisions

Any contact resulting in structural damage, track displacement or loss of position for another competitor may result in a post-race grid-drop penalty for the next event.

Self-governance. If an offending driver willingly yields the position back on track or self-enforces a corrective action after an incident, stewards may nullify or reduce an impending grid penalty.

8.2 Aggressive driving

Aggressive driving is dangerous, careless or reckless action that compromises the safety of other competitors - for example severe dive-bombing, push-to-pass manoeuvres, blocking, or entering the Vortex of Death.

> **Three official warnings for aggressive driving mean permanent disqualification from the series.** Stewards hold absolute final authority on these definitions.

8.3 Penalty ladder

Depending on severity, the stewarding panel can apply:

- Deduction of championship points
- Disqualification from the current racing season
- Permanent removal from the CSiRL league organisation and Discord server

SECTION 9

Ticketing, behaviour & championships

9.1 Incident reporting - private ticketing only

All incident reviews must be formally requested through the private ticketing system in **#stewarding**. Direct or public messaging regarding incidents is strictly prohibited. Tickets must include clear video evidence - recorded telemetry or replay perspectives - accompanied by a concise written description.

STAGE	WINDOW
Filing	Within 24 hours of the race session's conclusion. The ticketing system locks automatically after this period.
Defence	The defending driver has exactly 24 hours from the close of the filing window to submit a formal response.
Ruling	Official rulings and updated classifications are published 24 hours after the defence window closes.

How stewarding runs. The stewards are Mike Fagone, Dave Sciarretta, Ivan Duarte and Kevin Annis. Your ticket is visible only to you and the stewards; the stewards may add the other driver involved so they can give their side. A ruling requires two stewards in agreement — the league admin breaks a tie, and a Severe penalty (Section 8) requires the admin plus one other steward. A steward involved in the incident takes no part in the decision. Incidents without clear fault on the video evidence are ruled a racing incident with no action. Stewards keep a private per-driver record for the Section 8 escalation rule; you may request your own record by ticket. Rulings are delivered in your ticket and kept in the stewards' log; a one-line outcome is posted publicly only when a penalty changes points or positions.

9.2 Behavioural expectations

Communications within the ticketing system and official league channels must remain professional. CSiRL maintains a zero-tolerance policy for berating, harassment or hostile behaviour toward fellow competitors or officiating staff. Breaches will result in immediate race suspensions or league bans.

9.3 Championship

The Season 5 Drivers' Championship is decided on Discord-scored points (Section 5) across the 10 rounds, with each driver's single lowest-scoring round discarded. Round 10 at St. Petersburg on November 24, 2026 is the Grand Finale.

Ready to race? Tuesdays, lobby 7:00 PM EST. Join both steps: **discord.gg/d52ma2HQVB** + iRacing **League ID 11685**.

Championship Sportscar iRacing League (CSiRL) - GT4 Madness Series Guide (including the full Sporting Code), Season 5. Effective for the September 22 - November 24, 2026 season; revised November 11, 2026. Admins: Mike Fagone, Dave Sciarretta & Ivan Duarte. Discord: discord.gg/d52ma2HQVB.

SECTION 10

Driver Categorisation

Every driver who races in CSiRL carries one league rating, earned from their actual results across every CSiRL series they enter — GT4 Madness, the GR86 Cup, and Grand Endurance all feed the same rating. A driver is only expected at rounds in series they have entered; series never entered never count against them.

10.1 The Rating Score

After every race night, each driver is scored 0–100:

- **Performance — 60%** — finishing position measured against the field: each start scores (drivers beaten ÷ (field size − 1)) × 100, averaged over the driver's starts.
- **Safety — 30%** — average incident points (x) per start. An average of 2.0x per start or cleaner scores 100; every extra 1x per start costs 9 points, to a floor of 0.
- **Attendance — 10%** — starts ÷ rounds held since the driver's own first start in a series they have entered. Rounds before a driver's debut never count against them.

Scores are kept to one decimal place, and class thresholds apply to the exact score.

10.2 The ratings

CLASS	RATING SCORE
Platinum	90 and above
Gold	75 – 89.9
Silver	55 – 74.9
Bronze	Below 55

SECTION 10

Driver Categorisation — continued

10.3 New drivers - Seeded Provisional

A new driver is seeded from the iRating on their registration form, entering at the floor score of their seed class:

SEED CLASS	IRATING
Platinum	2500+
Gold	1800–2499
Silver	1200–1799
Bronze	1199 and under

For a driver's first 3 starts they are **Provisional**: the class shown is the better of their seed class or the class their real running score earns. At 3 starts the seed ends and the real score alone decides the class. A single race at 18x or more, or a 30x disqualification, voids the seed immediately. A driver at 750 and under, or with no iRating on file, starts as Bronze (Provisional) with no seed floor. Platinum can be seeded like any other class; it does not have to be earned first.

10.4 Counting rules

- Ratings take effect from GT4 Madness Season 5. Results from earlier seasons do not count toward a driver's Rating Score.
- A **start** is a race night the driver appears in the results. For GR86 heat nights, one night = one start; incidents are the night's total, and performance is the average of the two heats.
- A disqualification at 30x still counts as a start, with all 30x counted.
- A Grand Endurance round is one start for each driver who turned laps for their team. Performance is the team's finishing percentile; the team car's incident total is split across the drivers who drove and the race's hours.
- Stewarding penalties do not affect the rating score.

10.5 What ratings do

At launch, ratings are **badge-only**: they appear next to a driver's name on the standings and in the roster, with ▲▼ markers when a class changes after a round. They gate nothing. Functional uses may be switched on later once the classes have settled.
